

Whitby Harbour

This is a guide to calculating the fees you will be paying as a permanent vessel in Whitby Harbour.

Harbour Dues –

All vessels pay harbour dues, which run from 1 April to 31 March each year. These fees are payable in full and cannot be charged proportionally.

Mooring Fees –

These charges depend upon the mooring area and size you are allocated.

Summer moorings run from 1 April to 31 October each year.

Winter moorings run from 1 November to 31 March each year.

Once you have signed a Berthing Contract for a berth within the harbour the full years harbour dues and summer mooring fees are payable in full regardless of whether your berth is occupied. Winter moorings are optional and are only charged if your berth is used within the winter period.

Guide to calculating charges:

Harbour dues (length of vessel x annual rate) + Summer Mooring (length of mooring x mooring rate) or (minimum mooring fee) + VAT.

Example 1:

At 2010 fees a 10 metre vessel in a 10 metre berth on the Church Street Pontoon would pay:

Harbour dues - 10 metres at £40.00 per metre + VAT at 17.5%	£ 470.00
Summer mooring – 10 metres at £70.70 per metre + VAT at 17.5%	<u>£ 830.73</u>
Sub total	£1300.73
Winter moorings – 10 metres at £9.20 per metre + VAT at 17.5% (if berth occupied)	£ 108.10
Total for year	£1408.83

Example 2:

At 2010 fees a 7 metre vessel in a 7.5 metre berth on the Church Street Pontoon would pay:

Harbour dues - 7 metres at £40.00 per metre + VAT at 17.5%	£ 329.00
Summer mooring – minimum charge £537.40 + VAT at 17.5%	<u>£ 631.45</u>
Sub total	£ 960.45
Winter moorings – minimum charge £70.20 + VAT at 17.5% (if berth occupied)	£ 82.49
Total for year	£1042.94

Please note that it is not always possible to exactly match the length of a vessel to the berth length.

These calculations/particulars are produced in good faith and are set out as a general guide only and do not constitute any part of a contract.
